UB în CIVIS

Prezența Universității din București în comunicarea CIVIS se face în două moduri:

- fie prin articole dedicate UB despre activități pe care numai noi le-am făcut la nivelul consorțiului
- fie prin articole despre activități care s-au desfășurat la nivel de alianță în toate sau mai multe dintre universitățile membre în consorțiu

Pentru ambele tipuri de articole avem nevoie ca informația să plece din universitate spre cei care se ocupă de comunicare la nivelul consorțiului.

University of Bucharest participated in the Eu vs Virus virtual hackathon

29 aprilie 2020

From 24 to 26 April 2020, the European Commission organised a virtual pan-European hackathon to mobilise European innovators and civil society in tackling the COVID19 crisis. This event fitted in the 10 priority actions of the first ERA vs Corona Action Plan launched by the European Innovation Council on 7 April 2020.

Over 20,000 experts, digital fans and innovators participated in the hackathon which generated over 2,000 solutions on the following challenges:

- health & life
- business continuity

Students meeting on Academic Integrity at Bucharest University

11 decembrie 2019

The first edition of the International Workshop on Academic Integrity and Responsibility hosted by the University of Bucharest took place between 9th-10th December 2019 in Bucharest, Romania.

Four CIVIS universities - Aix-Marseille Université, Universidad Autónoma de Madrid, Université libre de Bruxelles and the University of Bucharest- came together in order to identify common solutions to contemporary ethical challenges posed to academic research and how those can be best addressed by the institutional tools that we possess. The workshop examined the institutional framework that ensures rule compliance with respect to academic integrity and responsibility in all the four participating universities.

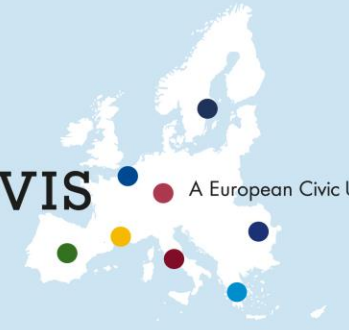

The first meeting of the students from CIVIS took the form of a two-days workshop. The

- Guide for a digital shift of educational activities

The Online Educational Activities Coordination Group (that works during the COVID-19 pandemic to ensure a swift transition to digital of educational activities) has developed the guide entitled "Recommendations for supporting online educational activities", designed to support the university staff in using the advanced digital solutions provided by the UB. It can be used as a handbook for all stages of teaching activities, from the preparation and delivery of lectures to evaluation of students.

- Online Campus UB

It is designed as an online campus that incorporates resources students and professors use in their educational activities. From access on Moodle, GSuite for Education and Microsoft 365 for Education, to access to online libraries and scientific data bases, the online campus provides a virtual common space that can be also used after the pandemic is over.
